INTRODUCTION

The academic, career, and personal/social success of our students is the primary goal of all of South Carolina's educators. As this goal is reached, we become a society of productive citizens and life-long learners. A critical component for our students in attaining this goal is the mastery of identified national and state standards in identified subject areas.

This guide is designed to provide a quick reference tool for educators to incorporate SCOIS Career Information System (CIS) resources and activities into the educational environment. It correlates identified resources and activities that support the attainment of standards in the following areas.

- Comprehensive Guidance
- English Language Arts
- Mathematics (Process Standards)
- Science (Process Standards)
- Social Studies (Economics)
- Health and Safety
- Foreign Language Goals

The South Carolina Occupational Information System (SCOIS) is a computer-based system of up-to-date career, educational, and personal information that is available for South Carolina school students. The use of SCOIS developed materials can assist with making learning more relevant and thus provide motivation for higher academic performance and achievement. The outcome is to provide the BEST for all of South Carolina's students.

When using the resources found within SCOIS CIS, the educator will find support for student attainment of the following standards and goals. **(Note: The standards and goals listed are only those that correlate to SCOIS CIS.)**

The South Carolina Occupational Information System (SCOIS) is our state's official Career Information Delivery System. Since 1978, we have provided many career development resources for South Carolinians.

We could not have provided these services had it not been for the hard work and support of many highly qualified educators across the state who have consistently worked closely with the SCOIS staff. Among these is Dr. Ron Miles.

A special thanks to Dr. Ron Miles for his assistance with updating the alignment of SCOIS CIS to the South Carolina Academic and Guidance Standards.
