

## Customizing...

Career Trek offers each student a custom list of occupations that is generated based on what the student has selected for their personal interest and career goals. Each of the occupations are grouped by interest areas.

Students can determine their Strengths and Weaknesses by using the Employability Skills questionnaire.

## Gaining Access...

If you would like to have access to Career Trek please contact:  
Heather Goff, SCOIS Program Assistant  
hgoff@ed.sc.gov or call 800-264-9038

# CAREER TREK

## What is Career Trek?

- Career Trek is a newly launched career exploration online program developed by CIS and distributed by SCOIS.
- Career Trek can assist elementary students with exploring their very own career interest and goals.
- Career Trek is formatted for students in grades 3rd through 5th. You could also use Career Trek with Middle and High School students.
- Career Trek takes the student through a simple Personality Assessment.
- Career Trek is Free to use.
- Career Trek has a one-time login, so students will not have to remember their login and password.
- Career Trek is a great tool to use during a short class period.
- Students can use the information they've found on Career Trek, and use it on CIS to further explore their interest and career goals.

## Exploring Career Trek...

Career Trek offers four ways to navigate through the system.

1. Explorer, which will provide students with examples of occupations that are specific to ideas, people and things.
2. Pathfinder, explores the student's different personality traits and occupations that are linked with those traits.
3. Career Trekker, provides information on employability skills and how they are used in each occupation.
4. Explore Occupation, where students can select items of interest according to their high, medium or low acceptance level.

You can use each division for an individual grade level. Such as Explorer for the 3rd grade, Pathfinder for the 4th etc. Or you can use all four as a systematic progression.

## Exploring Career Trek...

Career Trek offers many activities for the students to access while exploring their career interests.

1. Career Challenge
2. Decide whether they are a Doer, a Thinker or a Creator
3. Preview linked occupations.
4. And much, much more
